

fold

table / bench

design

Strong and elegant, fold tables and benches provide a simple surface with maximum clearance for legs, chairs and fresh air to fit underneath! The folded steel frame is proportioned carefully and finished beautifully making a low statement product to be used with any chair or as a bench and table set in any environment. Fold is available in a wide range of table top finishes and frame colours as a table and bench set, making fold a truly chameleon like addition to an interior. Practically, fold has adjustable height tilt and glide feet to further compliment it's 'use anywhere' character.

technical

Fold is handmade from mild steel. The finished single piece frame has a surface finish of hard wearing polyester powder coat. While the various table top options have their own unique characteristics and can be fully tailored for a client's needs. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Fold table designed by naughtone

general manufacture description

The Fold table and bench is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Frog table with solid oak top.
FOLD-TAB-1500 (oak)

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The Fold table frame is made from laser cut, folded mild steel. The individual laser cut components are folded and have minimal additional welding. The frame is supplied an-assembled for bolt together construction. The frame components are finished with a zinc primed polyester powder coat.

The top and frame are assembled together by hand using minimal fixings and can be easily disassembled if necessary.

The solid oak top is pieced together with individual planks, before being sanded smooth and CNC cut to the required size. It is then finished with a hard wearing spray matt lacquer.

facts

- 100% FSC certified timber
- naughtone is FISP and ISO14001 certified
- 45.8kg Total weight
- 44.7% Recyclable (frame, fixings & feet)
- 55.3% Compostable (top)
- 27.5% Recycled content (frame & fixings)
- 55.3% Reusable content
- 72.2% Recycled & Recyclable content

contents

- Top (solid oak) - 55.3%
- Frame (mild steel) - 44.1%
- Feet (polypropylene) - <1%
- Fixings (mild steel) - <1%
